A GUIDE FOR FAMILY & FRIENDS

Ledgerbook

A few shared things.
A little help finding your way.

Your guest guide

Keep this guide private

WELCOME

Make yourself at home.

Ledgerbook is Michael's home server. It shares a few things with family and friends he knows.

Which services do I have?

Your home page shows only the service tiles available to you. To see what else Ledgerbook offers, explore all available services. The directory describes each service, including those used only behind the scenes.

START HERE

Your email gets you in.

When a Ledgerbook web service shows a sign-in page, follow these steps. Some services also have their own account, explained under Your accounts.

1. Open the service's web address.
2. Enter the email address Michael registered for you.
3. Check your email for a one-time code.
4. Type the code into the sign-in page within a few minutes.

You stay signed in for about a day on that device. After that, you'll get a new code.

Keep your place.

Open links in your regular browser: Chrome, Safari or Firefox. Browsers inside Messages, Discord or Facebook can lose the code page.

Keep the sign-in tab open while you fetch your code. Switch back to **the same tab** to enter it.

Sign-in works only inside the US. If your VPN is set to another country, choose a US location or turn it off.

No code? Check spam, wait a minute, then try again. Codes expire.

Each service may ask you to sign in separately the first time.

YOUR PERSONAL SETUP PAGE

A place for your account details.

After signing in at ledgerbook.vip, open **Your accounts**. Only you and Michael can see your setup page. It lists your service usernames, starter passwords and setup links.

https://ledgerbook.vip/setup

1. Find the service you want on Your accounts.
2. For Audiobookshelf or Requests, use its username and starter password to sign in.
3. Change the starter password in that app's account settings.
4. Save your new password in a password manager, such as Proton Pass, Bitwarden or your phone's built-in manager.

Some accounts work differently

Kavita: There is no starter password. Open the setup link emailed to you and choose your own password.

Plex: Accept Michael's invitation email and use your own Plex account. There is no Ledgerbook password for Plex.

Private notes: Your accounts lists your username, password and the vault folder to open.

Keep your sign-in details private.

Never send passwords by email. Don't write them in notes or texts.

Looking for a service you don't have? Browse all available services. If a password won't work, email concierge@ledgerbook.vip for a reset; don't make a new account.

YOUR SERVICES · 01

⌂ Your home page

https://home.ledgerbook.vip

What it is

Your starting page, like a set of bookmarks. Use its tiles to reach each service.

Explore all available services.

You can also start at https://ledgerbook.vip.

Set it up · first time

1. Open your Ledgerbook home page.
2. Follow the Ledgerbook sign-in steps.
3. Save the page as a bookmark.

How to use it

Open a service

1. Find the service's tile.
2. Tap the tile.
3. Sign in again if asked.

Return to the home page

1. Open your saved bookmark.
2. Choose the next service.

Find your account details

1. Open ledgerbook.vip.
2. Open Your accounts setup page.

On your devices

Phone: Add the home page to your home screen for quick access.

> [[FILL: confirm iPhone and Android home-screen steps]]

Computer: Save a browser bookmark.

If something’s wrong

1. Can’t sign in? Follow the Ledgerbook sign-in steps.
2. Looking for a service that isn’t on your home page? Browse all available services.
3. Page won’t load? Try again in 10 minutes.

Still stuck? email concierge@ledgerbook.vip.

Please don’t

Don’t share your home-page link or sign-in codes.

YOUR SERVICES · 02

▶️ Movies & shows · Plex

https://app.plex.tv

What it is

A movie and show player, like Netflix. Watch in the Plex app or on the Plex website.

Explore all available services.

> [[FILL: confirm Plex is offered to this guest]]

Set it up · first time

1. Create a free Plex account.
2. Send the email address you used: email concierge@ledgerbook.vip.
3. Accept Michael's invitation in your email or Plex settings.
4. Open Plex on your device.
5. Choose Ledgerbook's libraries.

How to use it

Watch something

1. Open Ledgerbook's libraries in Plex.
2. Choose a movie or show.
3. Start playing it.

Find something to watch

1. Browse Ledgerbook's libraries.
2. Choose the title you want.

Reduce buffering

1. Open the playback quality settings.
2. Choose a lower quality.

On your devices

Use the Plex app on your phone, TV, Roku or Fire TV. On a computer, use Plex on the web.

Plex uses your own Plex account, rather than the Ledgerbook sign-in steps.

Jellyfin: Another movie and show player, available only on Michael's home network. It does not work over the internet.

If something's wrong

1. No shared libraries? Check that you accepted Michael's invitation.
2. Buffering? Choose a lower quality. Streaming quality depends on Michael's home upload speed.
3. Invitation missing? email concierge@ledgerbook.vip with the email used for Plex.

Still stuck? email concierge@ledgerbook.vip.

Please don't

Don't share your Plex sign-in or stream from five devices at once.

YOUR SERVICES · 03

+ Requests · Seerr

https://requests.ledgerbook.vip

What it is

A place to ask for movies or shows, like a wish list. Michael reviews each request; additions are not automatic.

Explore all available services.

Set it up · first time

1. Open Requests.
2. Follow the Ledgerbook sign-in steps.
3. Open Your accounts setup page.
4. Use the username and starter password from your setup page to sign in to Seerr.
5. Change the starter password in Seerr's account settings.
6. Save your new password in a password manager.

How to use it

Find a title

1. Search for a movie or show.
2. Open the matching result.

Make a request

1. Choose the title you want.
2. Tap Request.

Watch an added title

1. Open Plex after the title has been added.
2. Find the title in Ledgerbook's libraries.

On your devices

Use Requests in your phone or computer browser. Watch added titles in Plex.

Not everything can be found, and Michael may say no.

> [[FILL: typical wait for an approved request to appear in Plex]]

If something’s wrong

1. Can’t get past the first sign-in? Follow the Ledgerbook sign-in steps.
2. Seerr sign-in fails? Check Your accounts setup page; if it still fails, email concierge@ledgerbook.vip for a reset.
3. Title not in Plex yet? Requests need review; email concierge@ledgerbook.vip if you need an update.

Still stuck? email concierge@ledgerbook.vip.

Please don’t

Don’t create a new account if you forget your sign-in. Don’t send passwords by email.

YOUR SERVICES · 04

♫ Audiobooks & podcasts

https://audio.ledgerbook.vip

What it is

Audiobookshelf is a listening library, like an audiobook or podcast app. Stream a title or download it for offline listening.

Explore all available services.

Set it up · first time

1. Open Audiobookshelf in your browser.
2. Follow the Ledgerbook sign-in steps.
3. Use the username and starter password from your setup page: Your accounts setup page.
4. Change the starter password in Audiobookshelf's account settings.
5. Save your new password in a password manager.
6. For phone listening, install the Audiobookshelf app for Android or iOS.
7. Set its server address to https://audio.ledgerbook.vip.
8. Sign in with your Audiobookshelf account.

How to use it

Listen now

1. Choose a book or podcast.
2. Start playing it.

Listen offline

1. Connect to Wi-Fi.
2. Download the title in Audiobookshelf.
3. Open the downloaded title when you're offline.

Continue on another device

1. Sign in to the same Audiobookshelf account.
2. Open the title to continue with your synced progress.

On your devices

The phone app is recommended for listening. You can also listen in a browser on a phone or computer. If the app cannot get through the Ledgerbook sign-in page, use the browser and email concierge@ledgerbook.vip.

> [[FILL: confirm Audiobookshelf app availability and sign-in through the Ledgerbook login on Android and iOS]]

If something’s wrong

1. App can’t sign in? Use the browser and email concierge@ledgerbook.vip.
2. Account details don’t work? Check Your accounts setup page, then request a reset by email.
3. Place looks wrong? Check that both devices use the same Audiobookshelf account; email concierge@ledgerbook.vip if it continues.

Still stuck? email concierge@ledgerbook.vip.

Please don’t

Don’t use someone else’s account. Download over Wi-Fi.

YOUR SERVICES · 05

▤ Ebooks & comics · Kavita

https://books.ledgerbook.vip

What it is

A reading library, like Kindle, for ebooks and comics. Read in a browser or a compatible app.

Explore all available services.

Set it up · first time

1. Open the Kavita setup link emailed to you by Michael.
2. Choose your own password; Kavita has no starter password.
3. Save it in a password manager.
4. Open Kavita at the address above.
5. Follow the Ledgerbook sign-in steps if asked.
6. Sign in with your Kavita account.

How to use it

Choose a book or comic

1. Browse the library.
2. Open a title.

Start reading

1. Choose the book or comic you want.
2. Open it in the browser reader.

Pick up where you left off

1. Sign in to the same Kavita account.
2. Open your title to continue with your saved progress.

On your devices

Use a browser on your phone or computer. Compatible reading apps are also an option.

> [[FILL: confirmed compatible Kavita apps and their setup steps]]

If something’s wrong

1. No setup link? email concierge@ledgerbook.vip to request it.
2. Stopped at Ledgerbook sign-in? Follow the Ledgerbook sign-in steps.
3. Forgot your Kavita password? email concierge@ledgerbook.vip for a reset; don’t create another account.

Still stuck? email concierge@ledgerbook.vip.

Please don’t

Don’t forward your setup link. Keep your reading account to yourself.

YOUR SERVICES · 06

Ebook shelves · Calibre-Web

https://library.ledgerbook.vip

What it is

An ebook shelf, like a digital bookcase. Browse books, read them, or send them to an e-reader.

Explore all available services.

> [[FILL: confirm members get Calibre-Web accounts; remove this section and its contents entry if not]]

Set it up · first time

1. Open Ebook shelves.
2. Follow the Ledgerbook sign-in steps.
3. [[FILL: Calibre-Web account and first-time sign-in steps, if offered]]

How to use it

Browse the shelves

1. Open Ebook shelves.
2. Browse for a book.

Read a book

1. Choose a book.
2. [[FILL: confirmed Calibre-Web reading action]]

Send to an e-reader

1. Choose a book.
2. [[FILL: confirmed e-reader setup and send steps]]

On your devices

Browse from a phone or computer. E-reader delivery needs confirmed setup steps before use.

If something's wrong

1. Can't pass Ledgerbook sign-in? Follow the Ledgerbook sign-in steps.

2. Looking for a service you don’t have? Browse all available services.
3. E-reader delivery failed? email concierge@ledgerbook.vip with the book title and your device.

Still stuck? email concierge@ledgerbook.vip.

Please don’t

Don’t share your account or forward library links.

YOUR SERVICES · 07

▦ Minecraft

What it is

A shared world in Minecraft where you can play together. The separate join guide covers Switch, Xbox, PlayStation and PC.

Explore all available services.

Your connection details

Java edition
Server address: minecraft.ledgerbook.vip
Port: 25565

Bedrock edition
Server address: minecraft.ledgerbook.vip
Port: 19132

Use these details only after Michael has added your exact Java name or Xbox gamertag. Don’t forward them.

[[FILL: confirm whether guests may use the live world map; no map link included]]

Set it up · first time

1. Email your exact Java name or Xbox gamertag to concierge@ledgerbook.vip using the link below.
2. Wait for Michael to add your name.
3. [[FILL: Minecraft join-guide link]]
4. Follow the join guide for your device.

How to use it

Join the world

1. Open the separate join guide.
2. Follow the steps for your device.

Use the right player name

1. Check your exact Java name or Xbox gamertag.
2. If it changed, email concierge@ledgerbook.vip before joining again.

Get joining help

1. Note your device and what you saw.
2. Send those details: email concierge@ledgerbook.vip.

On your devices

The Ledgerbook sign-in steps apply to Ledgerbook web pages, rather than joining the game.

> **Bedrock: set up each Wi-Fi network**
>
> Enter the required DNS settings for each different Wi-Fi network you use. Setting them at home does not set them for a friend's Wi-Fi or a different hotspot. Check the settings again when you change networks.

> [[FILL: approved primary and secondary DNS values from the existing Minecraft brochure; confirm any differences by device]]

Nintendo Switch

1. Connect to the Wi-Fi network you plan to use.
2. [[FILL: verified Switch menu steps and DNS values from the Minecraft brochure]]
3. [[FILL: verified steps to open the server list and enter minecraft.ledgerbook.vip with Bedrock port 19132]]

Xbox

1. Connect to the Wi-Fi network you plan to use.
2. [[FILL: verified Xbox DNS steps and values from the Minecraft brochure]]
3. [[FILL: verified steps to join using minecraft.ledgerbook.vip with Bedrock port 19132]]

PlayStation

> [[FILL: verified PlayStation DNS and joining steps from the Minecraft brochure]]

Phone or tablet

> [[FILL: confirm iPhone/iPad and Android joining steps, including whether DNS changes are needed on either platform]]

PC

Use the address and port above for your edition of Minecraft.

> [[FILL: verified Java and Bedrock PC menu steps]]

The separate Minecraft join guide has the full device instructions: [[FILL: Minecraft join-guide link]].

If something’s wrong

1. Not allowed to join? Check that Michael has added your exact player name.
2. Can’t connect? Check your edition’s address and port. For Bedrock DNS setup, check the settings for the Wi-Fi network you’re using now.
3. Still unavailable? Try again in 10 minutes, then email concierge@ledgerbook.vip.

Still stuck? email concierge@ledgerbook.vip.

Please don’t

Don’t forward the Minecraft address or this guide.

YOUR SERVICES · 08

✎ Private notes

> [[FILL: personal Private notes link; do not publish a guessed address]]

What it is

A personal notes space in your browser, like a notebook. Your notes are private to you and Michael.

Explore all available services.

> [[FILL: confirm private notes should be included for this guest]]

Set it up · first time

1. Open Your accounts setup page.
2. Find your notes address, username, password and vault folder.
3. Open your personal notes address.
4. Follow the Ledgerbook sign-in steps if asked.
5. Use the username and password from your setup page.
6. Open the vault folder listed there.

How to use it

Open your notes

1. Sign in at your personal notes address.
2. Open your assigned vault folder.

Write a note

1. [[FILL: confirmed create-note and save steps]]

Return to a note

1. Open your assigned vault folder.
2. Choose the note you want.

On your devices

Use your personal notes address in a phone or computer browser.

If something’s wrong

1. No notes entry on Your accounts? Browse all available services to learn what is available.
2. Sign-in details don’t work? email concierge@ledgerbook.vip for a reset.
3. Not sure which folder to open? Check the vault folder listed on Your accounts setup page.

Still stuck? email concierge@ledgerbook.vip.

Please don’t

Don’t store sign-in details in notes or texts. Don’t forward your personal notes address.

THE LEDGERBOOK DIRECTORY

All available services.

Here’s what each service does. This directory is for browsing; it does not give you access. Open the services you have from your home page.

Your home page

Member service

Your starting page, with tiles for the services available to you.

Movies & shows · Plex

Member service

Watch shared movies and shows in the Plex app.

Requests · Seerr

Member service

Suggest a movie or show for Michael to review and add.

Audiobooks & podcasts · Audiobookshelf

Member service

Listen, download for offline listening, and keep your place across devices.

Ebooks & comics · Kavita

Member service

Read ebooks and comics in a browser or compatible app, with your place kept.

Ebook shelves · Calibre-Web

Member service · availability to be confirmed

Browse ebook shelves, read, and send books to an e-reader.

Minecraft

Member service

Join the shared world using the instructions for your device.

Jellyfin

Local use only

Another movie and show player that works only on Michael’s home network.

Private notes

Member service · available when set up for you

A personal browser notebook, private to you and Michael.

Radarr

Behind the scenes - admin only

Helps Michael manage the movie collection behind the scenes.

Behind-the-scenes tools are for Michael’s use only. You don’t need to open or set them up.

Interested in a member service? Use the service access message below.

A LITTLE HELP

One place to ask.

concierge@ledgerbook.vip

All questions, problems and requests go here. Michael has a day job, so replies aren’t instant. Never send passwords by email.

> [[FILL: usual reply time]]

Something is down

1. Try again in 10 minutes. Updates sometimes cause restarts at night.
2. If it still doesn't work, email concierge@ledgerbook.vip.
3. Include the service, what you saw and which device you used. A screenshot helps; keep sign-in details out of it.

> [[FILL: status-page link, when available]]

Ask for access to a service

Choose a member service from all available services, then copy this into an email:

> Hi Michael,
> My name is [your name].
> Could I have access to [service]?
> Please use this email: [your email].
> Thank you!

Suggest a new service

> Hi Michael,
> Could you host [service name]?
> It is [what it is].
> I'd use it for [what it is for].
> [Who else] would also use it.
> Thank you!

HOUSE RULES

A few shared courtesies.

1. Keep links, codes and your sign-in to yourself. Access is per person.
2. Don't forward the Minecraft address or this guide.
3. Download over Wi-Fi, and don't stream from five devices at once.

Michael can see basic activity, such as requests, reading progress and who's signed in.

FAQ

A few quick answers.

Why do I keep getting codes?

Your sign-in lasts about a day on each device. Each service may ask you to sign in separately the first time.

Why does it say I’m blocked?

Ledgerbook sign-in works only inside the US. Check whether your VPN uses another country; choose a US location or turn it off.

Can my partner use my login?

Access is per person. For a separate account, email concierge@ledgerbook.vip.

How do I keep my account safe?

Keep your codes and sign-in details private. Use a password manager, and never send passwords by email.

Does this cost anything?

No. There is no charge to use these shared services.

I forgot a service password. What now?

For a reset, email concierge@ledgerbook.vip. Don’t create another account.
